A Structured Way from Idea to Product

A structured approach to deliver a solution to an existing customer problem:

1. Define a **problem** and how it involves or **affects** end users
2. Define a **specific User group** willing to pay for the product
3. Identifying and outlining the most promising **concept solutions**
4. **Validating** the solution
5. Identifying key **solution features** to get buy-in from key **stakeholders**

Five simple and logical steps that will help you make your idea into a reality.

If you want to build a tech company and want to learn more about the how-to, check out our relevant blog post here: <https://bit.ly/2VdGCoO>

Who we are and what we do

- 1 We are an **innovation consultancy** re-shaping industries, ecosystems, and mindsets.
- 2 We work with the most forward thinking **Corporations, Organizations** and **Startups** in the Southern and Central Eastern Europe to find and build together the paths of disruptive innovation across industries and ecosystems.
- 3 We deliver innovation by embedding our startup mindset and culture into everything we do.
- 4 We have a unique mix of experience from both sides of the table as former corporate executives and entrepreneurs ourselves allowing us unique empathy with our corporate and startup clients and partners.

Thank you
